SEARCHING--lyrics

The journey gets harder each and every day
I struggle to find my strength as I pull this weight
Hanging over me, hanging over me

I keep looking for an answer that can only be found in me
Lord, please say that you hear me
Cause at times I can barely breathe
Please tell me it's out there, what I search for
The promise, I prayed for
Please tell me, it can be found

If I keep searching
Searching, searching, searching
If I keep searching
Searching, searching, searching

Wear my heart on my sleeve
Prepared if the world gets the best of me, the best of me
And though I've been let down, I try to exhale
And release, cause it aint worth my peace

I keep looking for an answer that can only be found in me
Lord, please say that you hear me
Cause at times I can barely breathe
Please tell me it's out there, what I search for
The promise, I prayed for
Please tell me, it can be found

If I keep searching
Searching, searching, searching
If I keep searching
Searching, searching, searching

Tell me it's not too late
Tell me to keep my faith
Tell me it's not too late please
Tell me to keep my faith

I keep looking for an answer that can only be found in me
Lord, please say that you hear me
Cause at times I can barely breathe

Please tell me it's out there, what I search for
The promise, I prayed for
Please tell me, it can be found

If I keep searching
Searching, searching, searching
If I keep searching
Searching, searching, searching
