*No Place Like Home--Lyrics*

I have been around the world

From Tokyo to Mexico

I have seen the shining lights of Hollywood

Ruins of ancient Rome

But there's no place like home

There's no place like home

When the sun goes down in the early evening

And it don't come up until we're finished sleeping

Where the cool breeze blows and the fish are jumping

And the greatest days is when we never do nothing

Where the jellyfish never sting our toes

And the rain falls down where the flowers grow

And everyone is your 'ohana if your vibes is pono

Kanikapila anytime, anywhere we go

Yeah there's no place like home

There's no place like home

Where the sun's shining all the time

And the skies are blue

Where the vines swing and the birds sing

And it's all for you

Where the river runs down from the mountain

To the sea

Where where love grows and good vibes flow

In between

You and me

Where the water falls anywhere it pleases

And you don't get caught begging on your knees

'Cause the fruit it grows everywhere on trees  
And we pick and eat it anytime we please  
Where the sand it sinks in between our toes  
And the ocean waves break upon our soul  
Where we slip and slide down the mountain side  
Na ke akua e mālama e kia'i ai  
Lua o leo Hawai'i  
Nani wale o Hawai'i nei  
(It is God who will protect and care  
Hawai'i like no other place  
Hawai'i will continue in beauty)
